

YOUR PERMANENT BOARDWALK SOLUTION

An innovative and long lasting answer to your boardwalk projects. Concrete boardwalks greatly reduce maintenance and injury liability created by traditional wooden boardwalks. They are built to weather storms, low lying areas and freeze thaw, while still incredibly attractive. TerraTread is a smart, long-term investment that takes your boardwalk to the next level.

WHY TERRATREAD?

Maintenance Free Product

TerraTread is superior to wooden products that deteriorate and require costly labor and repairs.

Incredible Strength

Projects over water or difficult terrain, TerraTread allows for a “top down” construction method. Capable of carrying light vehicle loads.

Each Project is Individually Engineered

No location is the same. Our product engineers will make TerraTread compatible to each location.

Incredible Longevity

An affordable pedestrian boardwalk solution that is more durable and safer to a wood solution.
